

ODST & Brize Norton Primary School Health and Safety Policy

Shine, Help, Inspire, Nurture, Excel

Date Adopted by Governing Body	Review Date	Signed by the chair of Governors
September 2022	September 2023	

This policy must be read alongside the ODST
Trust Level Health and Safety Policy

1. Statement of Intent

The Trustees of The Oxford Diocesan School's Trust (ODST) and Governing Body of Brize Norton Primary School recognise their responsibilities under the Health and Safety at Work Act 1974 (HSWA) to ensure that arrangements are in place to secure, so far as is reasonably practicable, the health, safety and welfare of students, staff and others using or visiting the premises, or participating in academy sponsored activities.

The Trustees and Central Team actively work with the Headteachers and staff to identify hazards and where these cannot be removed, ensure that they are adequately controlled.

- To establish and maintain a safe and healthy environment throughout the Trust
- To establish and maintain safe working procedures among staff and students
- To provide a clear policy and guidelines to enable health and safety issues to be tackled effectively

Training

All new employees will undertake an induction programme that informs them of their responsibilities in relation to health and safety in the academy.

As part of the induction, staff will be instructed in fire safety, site safety practices and procedures, and first aid procedures. This induction will be, when possible, carried out during the first week of a new starter's employment.

Provision, Inspection and Maintenance of Work Areas and Equipment

Workplaces and equipment will be suitable for the purpose and, as far as is reasonably practical, free from risks of injury.

Where the safety of workplaces and equipment is dependent on proactive inspection and maintenance, a programme will be established for a competent person to carry out the necessary works (e.g. portable appliance testing – PAT). Appropriate records and relevant test certificates will be maintained.

Health and Safety Policies and Procedures

The academy will adopt the Academy Trust's arrangements or, where necessary, establish its own arrangements, which may be set out in separate policies or a manual, for addressing the following areas:

Reporting of Incidents/Accidents/Abuse

Asbestos management (where applicable)

Contractors on site

Off-site activities

School security

Slips and trips

Vehicle movements

Fire safety

Electrical safety

Minibus safety (where applicable)

ICT use

First aid

Lifting/handling

Infectious diseases

Severe weather

Administration of medicines

Critical incidents
Lone working
Dignity at Work
Stress management
Water safety/legionella
Working at Height
Driving at work
Chemical Safety (COSHH)
Hygiene Standards
Commissioning and monitoring of Contractors

Roles and Responsibilities

The Trust Board

The Trustees have overall responsibility for health and safety and the strategic direction of the Trust with reference to health and safety. The Trustees will ensure that all necessary procedures are devised, implemented, monitored and reviewed to ensure compliance with these procedures and that they remain appropriate.

Competent Person

The competent person for health and safety is Jackie Hemmings from Oxfordshire County Council Health and Safety Team. She will support the Trust to:

1. Provide advice on all aspects of Health and safety strategy and policy.
2. Ensure safe, secure sites, advise on ensuring robust safety management
3. Offer specific advice (based on the Trust's own safety management arrangements) to assist in partnership with the Trust to address and manage statutory requirements based on industry standards.
4. Provide a safe environment, work processes and activities for pupils, staff and visitors by advising on your identified management system and operation in place
5. Comply with health and safety legislation, identify any significant risks and implement procedures to control those risks and meet statutory requirements
6. Advise on training and competency for employees to carry out their duties in a safe manner
7. Help complete the school's pre-checks on contractors if they are registered with the Contractor Health and Safety Assessment scheme (CHAS)

Responsibilities of the Governing Body

The Governing Body will ensure that:

1. The Headteacher produces a school health and safety policy for the academy for approval and adoption by the governing body.
2. Suitable and sufficient risk assessments of work activities are undertaken and a written record of the assessments is kept.
3. Sufficient funding is allocated for health and safety e.g. in respect of training, personal protective equipment etc.
4. Regular safety inspections are undertaken.
5. Inspection reports, including those from trade union health and safety representatives, are considered and acted upon.
6. Health and safety is a standing item on all agendas.
7. A positive health and safety culture is established and maintained.

Health and Safety Coordinator

The Health and Safety Coordinator, with the support of the Site Manager is responsible for the day-to-day management of Health and Safety at Brize Norton Primary School.

The Health and Safety Coordinator will:

1. Ensure that all health and safety and maintenance checks and reviews are undertaken and appropriately documented.
2. Effectively monitor the condition of the premises, following up defects and ensuring remedial work is undertaken.
3. Review and ensure that all appropriate risk assessments are undertaken.
4. Ensure appropriate communication and training, relating to health and safety is in place throughout the Academy.
5. Ensure that contractors on site follow safe working practices.

The role of Health and Safety Coordinator at Brize Norton Primary School will be fulfilled by: Robyn Jones (Headteacher) and Lee-Ann Keeble (Office Manager)

Headteacher/Leadership Teams

Members of the Directorate and Leadership Teams and others holding posts of responsibility are to familiarise themselves with all safety legislation, codes of practice and guidance relevant to their area of responsibility. As part of their day to day responsibility they are to ensure that, within their specified areas of responsibility, they:

1. Contribute towards the development of the Health and Safety Academy action plan and ensure targets are met.
2. Ensure health and safety is considered during changes or projects.
3. Ensure that suitable resources are available to enable the requirements for their area to be carried out.
4. Review, update and implement this policy and any codes of practice that are relevant.
5. Ensure that suitable monitoring of health and safety is undertaken.
6. Refer any health and safety issues that they are not authorised to deal with to the Headteacher.
7. Support and monitor safety performance of staff through one to one meeting, team meetings, key stage meetings or staff meetings.
8. Effectively communicate with all staff regarding health and safety.
9. Ensure all new staff are aware and understand the relevant codes of practice and safe operating procedures.
10. Ensure safe working methods are in place.
11. Ensure supervision is undertaken and adequate training needs are arranged.
12. Agree training plans for individual staff.
13. Ensure regular safety inspections are carried out in their area of responsibility and submit reports to the Governing Body, including an annual report.
14. Ensure safety requirements for plant machinery and equipment are in place and are adequate.
15. Ensure appropriate Personal Protective Equipment (PPE) is available, in good condition and being used correctly.
16. Ensure any hazardous substances are correctly used and safely stored.
17. Ensure standards of health and safety are monitored and appropriate remedial action is taken where required.
18. Ensure class risk assessments are prepared and reviewed annually or sooner should the needs arise.
19. Suitable and sufficient risk assessments of work activities are undertaken, that a written record

of the assessments is kept and that the assessments are reviewed annually or upon change in circumstances.

20. For high-risk activities, safe systems of work are identified via a suitable and sufficient risk assessment that is dated and signed.
21. Appropriate tasks are delegated to the site manager and other premises staff.

Responsibilities of the Site Manager

The Site Manager will ensure that:

1. Safe means of access are maintained and well lit.
2. The premises are kept clean and that adequate welfare facilities are provided.
3. Safe working arrangements are in place when contractors are working on the premises.
4. Adequate security arrangements are maintained.
5. Adequate fire safety arrangements are implemented.
6. Regular testing and recording of maintenance of electrical equipment, including portable equipment, takes place.
7. Adequate systems are in place for the management of asbestos and control of legionella.
8. All premises-related accidents/incidents are recorded and investigated.
9. Regular recorded inspections of the premises take place, with union safety representatives invited to take part.
10. A copy of the Health and Safety Law poster is displayed in an easily accessible location.

All Staff

Members of staff also have health and safety responsibilities. Staff are required to:

1. Take reasonable care of their own health and safety and that of anyone else who may be affected by what they do or fail to do.
2. Co-operate with all health and safety arrangements.
3. Report any defect or other health and safety matter that they are aware of to the Health and Safety Coordinator/Headteacher.
4. Use correct equipment, tools and protective clothing issued.
5. Ensure that they are familiar with all the Trust's and Academies policies in respect to health and safety and any risk assessments that are appropriate to the role they are undertaking.
6. Be part of their team class risk assessment review procedure, signing that they have read the assessments relative to their work.
7. Undertake any training provided, read relevant documents and implement codes of practice and instructions.
8. Refer promptly any health and safety issues to their line manager.

Specific Arrangements

Entry

A perimeter fence will be maintained with entry through two pedestrian entries for students and a third for staff and visitors. There is no entry for vehicular access. The pedestrian entry will be kept closed other than at the start and end of the academy day. Entrance to Brize Norton Primary School via the reception is specifically monitored by the office staff.

Visitors

All visitors must sign in at Reception and will be issued with a visitor's badge. They will be accompanied by a member of the academy staff throughout their visit unless they have a valid and acceptable enhanced DBS certificate. Where visits require one-to-one interviews, arrangements must be made to ensure their mutual safety.

Premises Hire

Any hirers of academy premises are responsible for ensuring that they use them correctly. The Trust recognises its duties as controller of premises and will ensure that:

1. Premises hired are in a safe condition for the purpose of hire.
2. Arrangements for emergency evacuation are adequate.
3. Fire-fighting equipment is in place and in operational condition.
4. Proper physical security arrangements are made.
5. Insurance requirements are met.
6. All hirers read and sign the Fire Safety and Evacuation Guidance for Community Use agreement.

Contractors

All Contractors must be signed in at reception and issued with a Contractors Pass to control work to be undertaken. They must be advised of any site-specific safety rules and informed of any hazards that they may be exposed to. They must also be advised of the site contact and the process for amending the authorised initial works.

Contractors have a legal responsibility to ensure that they carry out their work in a manner that ensures, so far as is reasonably practicable, the health, safety and welfare of themselves and anyone else who may be affected by their acts or omissions. They will, as visitors to the premises, be entitled not to be put at risk by circumstances relating to the premises that are outside their control. Where contractors are appointed directly by an Academy the Health and Safety Coordinator must ensure that:

1. The work to be undertaken by the contractors is agreed in advance.
2. Risk assessments and method statements are reviewed prior to works being undertaken.
3. Hazards and risks of injury and loss are identified, and ways of eliminating, reducing, and controlling those risks are identified and actioned.
4. The standards to which the contractor must work have been specified, including competency standards.
5. A management system is in place to ensure that the agreed safety performance is achieved, giving rise to remedial action if safety performance is unsatisfactory.
6. Where relevant, a copy of the Asbestos Register will be discussed and given to any contractor working in an area where contact with asbestos is possible.

Communication

All staff will be notified of communication channels within the Academy for health and safety at their induction. The Health and Safety Coordinator will ensure that all health and safety guidance and advice is kept together in the Health and Safety file. All such advice is to be communicated to staff where relevant and incorporated into the Academy's procedures.

Staff must report any incidents immediately to the Health and Safety Coordinator by radio, telephone or e-mail. Health and safety is discussed annually at inset meetings. Any health and safety related issues can also be raised at weekly staff or team meetings. Where this occurs the minutes of the meeting must be forwarded to the Health and Safety Coordinator for action if necessary.

Staff Consultation

The Governing Body and Headteacher recognise the valuable contribution to health and safety that can be made from all staff, particularly staff representatives. All the regular staff meetings of various groups will contain an agenda item on Health and Safety and any significant concerns or agreed

suggestions will be reported to the Headteacher.

Safety Practices

Guidance issued by the Health and Safety Executive and the Department for Education will be incorporated into the Trust's procedures. These arrangements will be discussed at the next Health and Safety Committee and any significant issues will be notified to relevant staff.

Risk Assessments

The Health and Safety Coordinator will ensure that risk assessments are carried out for Academy/School activities and operations, and for premises-related issues. These will be audited independently on a sample basis every year as part of the Health and Safety audit and reviewed by the Competent Person. The assessments will be used to identify health and safety hazards and ensure that, where they cannot be eliminated, the associated risks are reduced or otherwise adequately controlled.

Fire Precautions Statement

All fire prevention and alarm systems will be regularly maintained, and a record kept of both maintenance undertaken and testing of these systems. An expert third party will undertake an annual fire risk assessment.

Procedures

Staff are trained in the procedures to be followed in the event of fire at induction and annually thereafter.

Notices giving instructions concerning what to do in the event of fire must be displayed by all Fire Alarm Call Points. Evacuation route details will be displayed in each classroom.

Fire Drill

A fire drill will be held once every term and relevant details recorded in the Fire Logbook Fire section of the H&S file.

Accidents, Incidents, Near Misses and Dangerous Occurrences

All accidents, incidents, near misses and dangerous occurrences that fall within RIDDOR reporting requirements must be recorded and reported electronically on the HSE website, except in the case of a death, which must be reported by telephone.

All staff, visitor or contractor accidents must be recorded in the accident book.

The Health and Safety Coordinator or Headteacher in their absence, will take responsibility for investigating these events.

If a fatal accident occurs, the accident site must be left untouched until advice is obtained from the Oxfordshire County Council Health & Safety Advisers and ODST.

Oxfordshire County Council Health & Safety Advisers may be contacted for advice regarding any incident/accident that occurs, but, in the event of an incident which the Headteacher believes may require closure of an academy, Oxfordshire County Council Health & Safety Advisers or, in their absence, the Operations Manager, must be contacted immediately for advice.

Other

Maximum and minimum working temperatures

The Trust takes a common-sense approach to working temperatures both for the maximum and minimum temperature. This is based on a health and safety risk assessment including feedback from staff and students/children. In the very rare event of a heatwave or cold snap the Headteacher will decide about whether to close part or the whole of the Academy for a period of time.

Provision of drinking water supplies

Water taps are provided for water bottles which children bring in to school.

The use of Display Screen Equipment (DSE)

The Health and Safety (Display Screen Equipment) Regulations 1992 implement an EC Directive and came into effect from January 1993 (some small changes were made in 2002). The Regulations require employers to minimise the risks in VDU work by ensuring that workplaces and jobs are well designed.

The Regulations apply where staff habitually use VDUs as a significant part of their normal work. Other people, who use VDUs only occasionally, are not covered by the requirements in the Regulations (apart from the workstation requirements). However, the Trust Board still has general duties to protect them under other health and safety at work legislation. In summary these are to:

1. Analyse workstations and assess and reduce risks.
2. Ensure workstations meet minimum requirements.
3. Plan work so there are breaks or changes of activity.
4. On request arrange eye tests and provide spectacles if required specifically for DSE use.
5. Provide health and safety training and information.

ASBESTOS

The Academy Asbestos Management Plan (AMP) is kept by the Chief Operating Officer and any major works planned and any work involving access to roof voids, demolition or drilling into the ceilings/floors/walls, must be approved in advance to ensure asbestos is not likely to be disturbed. All staff are advised that asbestos containing materials (ACMs) across the Trust premises are not always labelled and that they should not pin, drill or otherwise potentially damage walls, ceilings, floors, etc. Staff are advised to assume that asbestos is present if in any doubt.

WATER ASSESSMENT AND CONTROL

Measures are in place for the regular monitoring and recording of hot and cold water systems to manage the risk of legionnaires disease. A Water Hygiene Risk Assessment will be carried out every two years in accordance with L8 legionnaires' disease. The control of legionella bacteria in water systems, approved Code of Practice and guidance on regulation.

Inspection

The Academy will be inspected on an annual basis by a qualified Health and Safety consultant and a report produced for the ODST Central Team, The Headteacher, Governors and the Trustees.
