

### Safeguarding Curriculum

At Brize Norton, we take the safeguarding of our children very seriously. We believe in educating our children in keeping themselves safe at an age appropriate level. We teach safeguarding through our diverse curriculum, carefully chosen quality texts, focus days and weeks, assemblies as well as our daily interactions with children. Not only do we have a curriculum for children but we are vested in ensuring the adults who care for them also have high quality continual professional development within this area.
